The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Veritas Global Focus Common Contractual Fund (the Fund) – Class A GBP

The Fund is a sub-fund of Veritas Common Contractual Fund (the CCF)
Management Company: Waystone Management Company (IE) Limited

ISIN: IE00BWWYTT58

Objectives and Investment Policy

The Fund is designed for long-term investors who wish to build capital over a number of years through investment in a focused portfolio of global companies. The Fund is actively managed and is not managed in reference to, or constrained by, any benchmark.

The Fund principally invests in equities, irrespective of specific geographical location listed or traded on Recognised Exchanges throughout the world. Investments may also be made in securities (including convertible bonds with equity linked notes which bonds shall be fixed and/or floating rate and shall generally be investment grade) which are listed or traded on a Recognised Exchange, subject to the Investment Restrictions listed in the Prospectus, although it is not the current intention that such investments will be made. The Fund will not invest in leveraged notes. No consideration will be given to country or global index weightings, nor will the Fund be always fully invested in equities, and as a result performance may be significantly different from that of the markets in which it is invested, or the performance of commonly followed global indices.

Investments in the Fund may include financial derivative instruments. Such instruments may be used to obtain, increase or reduce exposure to underlying assets and may create leverage; therefore their use may result in greater fluctuations of the Net Asset Value of the Fund. The Investment Manager will ensure that the use of derivatives does not materially alter the risk profile of the Fund.

You can buy, sell and switch shares of the Fund on demand on any Business Day as defined in the "Definitions" section of the Fund's Prospectus.

The base currency of the Fund is USD.

It is intended that dividend income will be distributed as set out in the "Dividend Policy" section of the Supplement of the Fund.

Risk and Reward Profile

The Risk and Reward Indicator table shows where this share class ranks in terms of its potential risk and return. The higher the rank, the greater the potential reward but the greater the risk of losing money. It is based upon studies of how such investments have performed in the past and you should note that this share class may well perform differently in the future. The shaded area in the table above shows the share class's ranking on the Risk and Reward Indicator. The lowest category does not mean that a share class is risk free. The table uses a standard calculation method that is used by all EU companies who offer such funds to allow you to compare funds.

Historical data may not be a reliable indication for the future. The rating is not guaranteed to remain the same and the risk/reward category may change over time.

This share class is in a higher risk category because it invests primarily in shares. Shares may offer high long-term growth potential, but the prices of shares fluctuate and often go down as well as up. The Fund may invest in Emerging Market equities which have historically experienced more price volatility than developed markets. In addition, the Fund has a currency risk given that it invests in shares which are priced in different currencies.

The Fund may also be exposed to counterparty risk which could lead to financial loss if a counterparty is unable to meet its contractual obligations. The Fund is also exposed to liquidity risk where there could be insufficient buyers or sellers to trade the underlying holdings.

Recommendation: The Fund is suitable for investors with a long-term time horizon – typically five years.

A more detailed description of risk factors that apply to this Fund is set out in the "Risk Warnings" section of the Supplement.

Charges for this fund

One off charges taken before or after you invest

Entry charge None

Exit charge None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing charges 0.83%

Charges taken from the Fund under specific conditions

Performance fee None

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The ongoing charges are based on expenses for the year ending 31.12.2025. This figure may vary from year to year and is based on total expenses for the Fund which are higher than the standard management charge. It excludes portfolio transaction costs and any performance fees.

For more information about charges, please see the "Charges and Expenses" section of the Prospectus and the "Fees" section of the Supplement of the Fund, which is available at www.vamllp.com.

Past performance

The Fund was launched on 07.07.2015. The share class was funded on 21.03.2016. Past performance includes reinvested income. Past performance is calculated in GBP after all ongoing charges. Past performance is not a guide to future performance. Performance is measured against the MSCI World Index as an indication of market performance for comparison purposes only.
